

Parent-Child Conflict Coding System

C.A. Childress, Psy.D. (2015)

Syndrome Category:	SC-01: 01	Attachment-Based Parental Alienation (Narcissistic)
Parent-Child Conflict Code		
Primary Origin:	PCC-05: 02	Family Systems Strain; Child Triangulation – Parent-Child Coalition Against a Parent
Secondary Factors:	PCC-00: 02	Empathic Failure; Parent – Narcissistic Failure of Parental Empathy
	PCC-04: 01: 01	Parent Vulnerability; Parent – Withdrawn/Disengaged; Emotionally Distant, Disengaged, Neglectful
Modifiers	NP; TC; M; CG; R	Narcissistic Parenting; Terminal Course; Malice, Chronic Grievance – Absent Forgiveness; Revenge

Syndrome Category:	SC-01: 02	Attachment-Based Parental Alienation (Borderline)
Parent-Child Conflict Code		
Primary Origin:	PCC-05: 02	Family Systems Strain; Child Triangulation – Parent-Child Coalition Against a Parent
Secondary Factors:	PCC-00: 02	Empathic Failure; Parent – Narcissistic Failure of Parental Empathy
	PCC-04: 03	Parent – Intrusive Hyper-Anxious Parenting
Modifiers	NP; TC; M; CG; R	Narcissistic Parenting; Terminal Course; Malice, Chronic Grievance – Absent Forgiveness; Revenge

PCC-00: Empathic Failures

- 01 Child/Parent –Normal-Range Expressions of Individual Differences Creating Minor Breach-and-Repair Sequences
- 02 Parent – Narcissistic Failure of Parental Empathy
- 03 Child – Child Insensitivity and Empathic Failure

PCC-01: Situational Factors

- 01 Child - Captivated by an Object of Desire
- 02 Child – Resistance to Unpleasant Activity
- 03 Child – Resistance to Stopping Pleasurable Activity
- 04 Child – Resistance to Transition
- 05 Child – Wanting Affection
- 06 Child – Response to Parental Discipline
- 07 Child – Stress-Related Emotionality/Behavioral Dysregulation

PCC-02 Child Vulnerability Strains:

- 01: Child – Autism-Spectrum Vulnerability
- 02: Child – Behavioral Over-Activity
- 03: Child – Motivational-Behavioral Impulsivity
- 04: Child – Anger Regulation Challenges
- 05: Child – Anxiety Regulation Challenges
- 06: Child - Fragile Child Regulation

PCC-03 Child/Parent Vulnerability Strains:

- 01: Child/Parent – Attachment Insecurity
- 02: Child/Parent – Temperament Goodness of Fit
- 03: Child/Parent – Motivational Differences
 - 01: Parent Task-Oriented – Child Bonding-Oriented
 - 02: Parent Authority-Oriented – Child Independence-Oriented

PCC-04 Parent Vulnerability Strains:

- 01: Parent – Withdrawn/Disengaged
 - 01: Emotionally Distant, Disengaged, Neglectful
 - 02: Over-Sad Disengaged Parenting
- 02: Parent – Inflexible/Rigid Parenting
- 03: Parent – Intrusive Hyper-Anxious Parenting

- 04: Parent – Anger Dyscontrol in Parenting
- 05: Parent – Physically Assaultive Parenting
- XX: Parent – Sexually Assaultive Parenting

PCC-05: Family Systems Strains

- 01 Family – Child Triangulation – Parental Coalition Against Child
- 02 Family – Child Triangulation – Parent-Child Coalition Against Parent
- 03 Family – Problematic Family Transition

Modifiers:

AP: Antisocial Pathology

The parent-child conflict evidences antisocial pathology

CG: Chronic Grievance – Absent Forgiveness

One or both parties to the parent-child conflict maintain a chronic grievance toward the other party which is asserted to be “unforgivable”

TC: Terminal Course

The parent-child conflict has mutated into a form that terminates the parent-child relationship

M: Malice

The parent-child conflict evidences a desire to inflict injury

NP: Narcissistic Parenting

Parenting evidences narcissistic or borderline personality organization

R: Revenge

The parent-child conflict reflects a desire to revenge past conflict or perceived injustice

SAC: Substance Abuse - Child

The parent-child conflict emerges from or is exacerbated by child substance abuse factors

SAP: Substance Abuse - Parent

The parent-child conflict emerges from or is exacerbated by parental substance abuse factors
